

# PACKAGING TOOLKIT

This week we are going to look at some food carton designs that you will find on supermarket shelves. Next time you see a food carton have a look at its design.

## WHAT YOU WILL NEED:

Printer

Scissors

Paper

Colour Pencils

## CARTON DESIGN:

Easter Bunny carton with no gluing.

## QUESTION:

Why does this carton not need any glue?

## ANSWER:

This is a clever carton design that folds over on itself and clips into place without the need to glue.

## HOW TO MAKE:

You can choose whether you want to colour in your own design or use the one that has already been coloured-in by our graphic designer!

1. Once you have folded all the flaps, put the two panels with the rabbit ears back-to-back.
2. Very carefully bend the two side flaps over the ears, one-by-one.
